## U.S. READY TO ENTER REPARATIONS CONFERENCE

### TRAPP PLACED AT THE HELM IN OKLAHOMA

Lieutenant-Governor is Declared Acting Governor Pending Impeachment Trial of Walton

### INJUNCTION AGAINST WALTON MADE PERMANENT BY COURT

Governor Declares He'll Continue Fight: Vote Klan Investigation

OKLAHOMA CITY, Ok.—By The Associated Press.—When the Oklahoma house recessed Friday for lunch, only two counts on its committee impeachment bill remained to be considered before the completed bill is ready for presentation to the senate. Six articles were approved at the morning session, all by large majorities.

OKLAHOMA CITY, Ok.—By The Associated Press.—Lieutenant Governor M. E. Trapp was declared acting governor of Oklahoma in a decision of the state supreme court late Thursday, making permanent a writ of prohibition against Governor J. C. Walton and District Judge Tom G. Chambers, Sr., which restrained them from interfering with the lieutenant governor's assumption of office.

The court announced its decision only after a brief conference following an afternoon of argument. The decision, it was explained, made the writ effective against J. C. Walton as an individual, and not as governor. Judge Chambers was enjoined in his official capacity as judge. The vote of the court was 5 to 4.

### ELECTRICAL WIZARD DIES FRIDAY AFTER PHYSICAL COLLAPSE

Dr. Charles P. Steinmetz Passes Suddenly at Home in Schenectady

### ATTRACTED WIDE ATTENTION BY HIS ELECTRICAL FEATS

One of Triumphs Was Production of Indoor Electrical Storm

SCHENECTADY, N. Y.—Dr. Charles Proteus Steinmetz, electrical wizard, died at his home Friday of a physical breakdown due to a trip to the Pacific coast, from which he recently returned.

The attending physician stated that while breakfast was being served the patient, his heart suddenly seemed to give way and he died immediately.

Produced Indoor Storm

A recent feat which attracted attention to the work of the electrical wizard was the production of an electrical indoor thunderstorm, including a bolt of lightning. The thunderstorm which Dr. Steinmetz both produced and controlled had all the characteristics of its natural brother except the thunderclaps.

At a demonstration of the Steinmetz "lightning generator" in the laboratory of the General Electric company in March, 1922, the familiar forked tongues flashed through the air with a deafening crash, splintering a large block of wood, hurling the fragments 25 feet and ripping a miniature tree from tip to base.

The bolt carried the energy of 1,000,000 horse-power, about one-fifth hundredth of the energy of natural lightning bolt, and lasted for one hundred thousandth part of a second.

Generates Lightning

"In our lightning generator," Dr. Steinmetz explained, "we get a discharge of 10,000 amperes at over 100,000 volts, lasting for one hundred thousandth part of a second. This gives us the explosive, tearing and shattering effect of real lightning, so that a piece of small tree exposed to the discharge is mechanically torn to pieces. A piece of wire struck by the flash vanishes in dust.

"The difference between lightning energy and ordinary electric current is similar to that between a pound of dynamite and a pint of gasoline. The pint of gasoline contains more energy and can do more work but it gives off its energy while the dynamite gives off its energy explosively all at once at an enormous rate of power."

### Interested in Socialism

Dr. Steinmetz took a keen personal interest in socialism and in the work abroad of socialistic economists.

Last year he was a candidate on the socialist party ticket for the office of state engineer and surveyor and although defeated, ran well ahead of the other candidates on his ticket.

During the election campaign the socialist party candidate announced he had worked out a plan for a gigantic electrical system which would provide heat, light and power for the state.

In April, 1922, Dr. Steinmetz made public a letter to Lenin, chief of state of soviet Russia, offering his services for technical advice to that country. In January of this year he accepted a post as member of the advisory committee of Kuzbas colony in Siberia.

### Edison Deplores Passing

WEST ORANGE, N. J.—"The world has lost one of its greatest mathematicians and the electrical industry will miss one of its shining lights," said Thomas A. Edison, when informed of the death of Charles P. Steinmetz at Schenectady. The famous inventor was shocked at the news.

### DOCTOR DROPS DEAD

FOND DU LAC, Wis.—While administering electric treatment in his office Dr. Joseph P. Stoye, 55, Theresa physician for 27 years, dropped dead from heart trouble. The patient summoned help but the doctor was beyond aid.

### Texas Duellists, Locked In Barn, Battle to the Death in Grim Toe-to-Toe Pistol Fight

LEAGUE, Texas.—Locked in a little room in a barn at Youngs, Freestone county, shortly after dusk Wednesday night, two men stood toe to toe, their left hands locked together, their right hands clutching smoking revolvers, which spat bullets until neither man could summon strength to pull the trigger. Dead, with their boots on, and still grasping each other, they were found.

The principals in the shooting, one of the grimmest pistol duels Texas ever saw, according to Sheriff David Terry of Navarro county, were: Norwood Huckaby, member of a prominent Freestone county family.

### MINNESOTAN NAMED U. S. AMBASSADOR TO GREAT BRITAIN

FRANK B. KELLOGG

### KELLOGG ACCEPTS AND LEAVES FOR LONDON NOV. 10

WASHINGTON, D. C.—Frank B. Kellogg, former United States senator for Minnesota, has been selected for American ambassador to London.

He will succeed George Harvey, who recently resigned, and the appointment is expected to become effective in the near future.

### New Ambassador Returns to St. Paul Today After Conference With Coolidge

ST. PAUL, Minn.—Frank B. Kellogg, former United States senator from Minnesota, whose appointment as ambassador to Great Britain was announced in Washington, has accepted the post and will leave November 10 for England. It was announced here Friday.

Announcement of the appointment of Mr. Kellogg followed the former senator's return here Thursday from Washington, where he conferred with President Coolidge and Secretary of State Hughes and where the appointment was tendered him.

"Just lots of hard work and no romance," is Mr. Kellogg's explanation of his rise from Minnesota to the United States senate and now to the court of St. James.

"I always wanted to be a lawyer," is Mr. Kellogg's only explanation of how and why he chose that profession.

In the 1922 campaign he was re-nominated for the senate by the republicans but failed of re-election in the sweep of the farmer-labor party which sent Henrik Shipstead to the senate from Minnesota by a majority of more than 30,000 over his nearest opponent.

### Catholics Promote Education

And indeed, who is Dr. Evans to pose as a devotee of culture or the champion of education. The most elementary reading in modern history would have acquainted him with the fact, which innumerable non-Catholic writers eloquently proclaim, that the Catholic church, in season and out of season, has been the indefatigable patron and promoter of education. The work she has accomplished for human enlightenment and progress is simply incalculable. She preserved from the wreck of the Roman Empire the Holy Scriptures, whatever classics we have of the Greek and Roman world and the Roman law. She reclaimed the barbarians of the north from their idolatry, their superstitions and their ferocity, to the light of Christianity and to the glory of civilization.

"Wherever possible she founded schools for the laity. The majority of the universities of Europe were founded before the sixteenth century. But as another proof of the ignorance of Dr. Evans, let me quote his remarks: 'No nation can long endure that permits a higher temporal allegiance than to its own government. The hierarchies of Roman and Greek Catholicism violate that principle. To them the presidency at Washington is subordinate to the priesthood at Rome.'

About the Hierarchies

"Now first of all, Dr. Evans speaks of the hierarchies of Greek and Roman Catholicism. He says that they

### CONDON ANSWERS KU KLUX ATTITUDE TOWARD CATHOLICS

Pastor of St. Mary's Catholic Church Refutes Statements on Illiteracy

### DENIES ROMAN INTEREST IN U. S. TEMPORAL AFFAIRS

Quotes Authorities on Separation of Church and State

In answer to the statement of Dr. H. W. Evans, imperial wizard of the Ku Klux Klan, in which the Klan's attitude against negroes, Jews and Catholics was explained, the Rev. Dr. Robert B. Condon, pastor of St. Mary's Catholic church, has issued the following statement:

"Yes, I have read the assertions of Dr. Evans, the imperial wizard of the Ku Klux Klan, and I am glad to say that I cannot but marvel at his ignorance. If he is sincere I cannot but marvel at the ignorance which he takes for granted in others.

Remarks on Jews Inconsistent

"First, his remarks about the Jews are strangely inconsistent in a man who is evidently as exclusive in his Anglo-Saxonism as he accuses the Jewish people of being in their social life. However, no one has constituted him the spokesman for Anglo-Saxonism. And he evidently forgets the good old Anglo-Saxon maxim that every man's house is his castle. He forgets that the Jew is as free as Dr. Evans or as anyone else to admit whomsoever he pleases to his home.

"As to his remarks about Catholics: First he arraigns the Catholic church, because, in some countries, where the majority of the people are Catholics the percentage of illiteracy is high. Without entering into the cause of this illiteracy, causes quite independent of religion and the illiteracy is not so high as he makes out. How about those countries where the majority of the population is Catholic and where the percentage of illiteracy is low?

"I have here a report of the United States commissioner of education in regard to the number of children for every 1,000 of the population who are in Europe and attending school from the kindergarten to the university and I find that Bavaria, a Catholic country, has the list with an attendance of 212 children in school for every 1,000 of the population. See report of the U. S. Commissioner of Education, First volume, page 357.

"The merest trifle in sociology will assure that to explain indeed very many other things about it, an elaborate analysis of the conditions of that country, conditions social, political, economic and geographical is necessary. Take our own country. According to the latest report of the United States commissioner of education fully one-half of the colored children of the south are not in school at all. Look at the deplorable school attendance of the white children of Alabama. Consider the illiteracy of Tennessee. Compare the amount spent per child for education in Mississippi with the amount spent per child in New York. The overwhelming majority of the people of these Southern states, both white and colored, is non-Catholic. Would I be fair if, unmindful of the causes many and various of this inferiority, I should ascribe it to the religion of my non-Catholic brethren? Assuredly, I would be most unjust but not more so than Dr. Evans in reference to my religion.

### SEPARATISTS IN RHINELAND NOW ENCOUNTERING STIFFER OPPOSITION TO A REPUBLIC

Movement Would Have Failed Already Had it Not Been for Support of French Declares Stresemann; Hold Gains With Difficulty and Little Progress is Made

BERLIN.—By the Associated Press.—Reports from numerous places in the Rhineland indicate that the separatists are waging their battle for a Rhineland republic with varied success and that local opposition by loyal Germans is becoming sturdier and the secessionists grow bolder.

Desultory fighting now extends from Aix-la-Chapelle to Speyer, the Palatinate having suddenly become the scene of separation activities which are being fostered by the French military authorities. This is said to be in the face of native indignation and opposition to a proposal championed by local socialist leaders that the Palatinate be constituted an autonomous state within the republic.

Fighting in the Rhineland, as reported here, has chiefly resolved itself into fistfights and the black jacking of separatists by their German opponents who not being allowed to carry weapons, are making use of their brawn and muscle.

People Opposed

BERLIN.—Chancellor Stresemann, in a speech at Hagen, Westphalia, Thursday, said the separatist movement in the Rhineland was against the unanimous wishes of the German inhabitants, who would have put it down speedily but for the support of the French and Belgian bayonets.

At a conference of industrial leaders, the chancellor promised that the government would still give financial assistance to occupied regions and that a provisional stable currency would be created by the Rhineland towns.

In his speech the chancellor said that Germany would make no further deliveries to the allies "because the occupation of the Ruhr is inadmissible."

### Block Attempts Of Radicals To Invade Berlin

LONDON.—Thursday's attempts by communists to march on Berlin were frustrated by the police, says a dispatch to the Central News from Berlin (Central News dispatches from Berlin said such attempts were in progress, but no confirmation that any important communist move on Berlin had been made has come from any other quarter).

Everywhere in Germany, adds Friday's Central News Berlin advises, the situation is quiet except at Hamburg, near Hamburg, where the fighting is continuing. Marines landed there Friday morning engaged the communists, who lost three killed and sixteen wounded, the advice state.

### BADGER OFFICIALS TO CONFER ON DRY LAW ENFORCEMENT

Blaine, Sachtjen and Perry to Go Over Latter's Plan for Campaign

MADISON, Wis.—A conference between Governor J. J. Blaine, State Prohibition Commissioner Herman Sachtjen and Clark M. Perry, federal prohibition director for Wisconsin on details of Perry's plan for a stringent enforcement campaign is probable before the state officials will declare themselves on the move, it was understood Friday.

Governor Blaine held an extended conference last night with Commissioner Sachtjen regarding the enforcement plan but no statement on their stand was made.

It was stated at the governor's office this morning that the official invitation to join in the campaign has not yet been received and until it is, no action will be taken.

Director Perry's program for a state-wide movement against illicit liquor was outlined at Milwaukee yesterday.

### OUT-DOOR WORK ON THE WANE IN BADGER STATE

MADISON, Wis.—Outdoor employment is decreasing in Wisconsin and is considerably less than it was a year ago at the same time. The state industrial commission announced on Thursday. The number of placements made by the 10 public employment offices for the week ending Oct. 20 was 2,732 as compared with 3,152 the previous week and 3,515 the same week a year ago. The commission announced that it had granted compensation to a butter-maker who was overcome by heat while at work in a creamery. The commission declared that while the day was exceptionally hot the heat in the creamery was greater due to the fact that steam was being used in cleaning and in pasteurizing milk.

### BRITAIN ACCEPTS PLAN FOR 12-MILE LIMIT ON LIQUOR

LONDON.—By the Associated Press.—The British government has accepted in principle the proposal of the American government that vessels in American waters be searched for contraband liquor within twelve miles of the American shore.

The export committee of the imperial conference, which has been studying the question under the chairmanship of Foreign Secretary Curzon, has drawn up plans which are believed to include the essential points of the American request. The plans will be submitted next week to the full conference, which is expected to approve them.

### OFFER OF AID IS ANSWER TO NEW APPEALS

Hughes Note to Britain Stresses Importance of Full Attendance at Conference to Discuss Debts

### AMERICAN OFFER REGARDED AS BRINGING CONFERENCE NEARER

France Willing if Conferees are Named by Reparations Commission

LONDON.—By the Associated Press.—France, Belgium and Italy have accepted the British invitation for a reparations conference with the understanding that it shall take the form of a committee of experts under the authority of the present inter-allied reparations commission.

It is understood the British members will be the same as those who served on last year's bankers' committee at which the United States was represented by J. P. Morgan. It is thought of the conference as the chief function of the committee will be to inquire into Germany's financial assets. Selection of the French, Belgian and Italian personnel is expected to be completed shortly.

### Re-enter Coblenz

COBLENZ.—By the Associated Press.—The new Rhineland republic is where it was Thursday. The separatists maintain with difficulty their hold on Aix la Chapelle, Wiesbaden, Bonn, Mayence, Dusseldorf, Duren and Crefeld, while the strength of their position in Coblenz which they re-entered late at night, remains to be seen.

At most of these places, however, the republicans are subjected to the sort of guerrilla warfare on the part of their opponents, resulting frequent intervention by the French and Belgian troops to restore order. Only at Trier do they seem to enjoy undisturbed possession.

The separatists, also, say they have occupied a number of small towns such as Godesburg, Ropert, St. Goar and Burscheid. The city of Cologne is dependent on the latter town for part of its dairy products and foodstuffs.

Ask Allied Recognition

After retaking the provincial government building and postoffice here the provisional separatist government, headed by Joseph Mathies visited Colonel Philippe, the French delegate on the high commission. On leaving the colonel's office, Mathies said that the separatists had handed the Rhineland commission a declaration requesting recognition of their regime in Coblenz, promising to respect the authority of the occupation forces and to adopt a conciliatory attitude toward such inhabitants as have not yet rallied to their movement.

Prepare for Siege

NEUSS.—By the Associated Press.—If separatists arrive here they will be met by guards. These men have telephone connection with police headquarters, where food and beer enough to last weeks have been stored in the event that the republicans endeavor to corner the towns defenders. All the outer streets have been dug. The burgomaster says he will fight to the finish.

### INSPECTION DRILL FRIDAY AT 6:45 P. M. AT 120TH'S ARMORY

An inspection drill of the units of the 120th Field Artillery will be held this (Friday) evening at 6:45 o'clock at the Mormon Coulee road armory. The time of the inspection has been advanced by Major Stanley Gordon in order that members of the 120th F. A. desiring to attend the boxing tournament may get to the bouts. The inspection is being made by Capt. John Carlsfelder senior field artillery instructor for Wisconsin.

### MINE CUTS WAGES

BUTTE, Mont.—Notices of a fifty-cent reduction in day's pay were posted at all mining properties in Butte, Anaconda and Great Falls Friday. The wage cut affects all working on day's pay and contract work. It is estimated that fourteen thousand men are affected. The wage cut is operative November 1. High cost of production and low price of metals are given as the reasons for the reduction in wages.

### BRUSSELS. — By the Associated Press.—The Belgian government is

### Belgium to Accept

PARIS.—By the Associated Press.—The French government is willing that an international conference of experts to be named by the reparations commission be called to consider the question of reparations in conformity with the treaty of Versailles.

The French government, it was said in official circles this morning, would be most happy if the government of the United States would name an expert to participate in such a conference.

It was announced that Premier Poincare, in the name of the French government, already had informed Secretary Hughes that he would accept an international commission of experts to determine Germany's ability to pay, but that they must be named by the reparations commission. The British government, it was added, had not accepted this condition.

## TWO IN MINNESOTA PRISON WANTED AS ORLADY WITNESSES

Trial of Mondovi Banker Accused of Plot to Rob Own Bank to Open Monday

MEN HIRED TO DO JOB NOW IN STILLWATER PENITENTIARY

Badger Prosecutor Appeals to Minnesota for Release of Two

ALMA, Wis.—On the success or failure of state attorneys to obtain release of two men claimed to be serving terms in the Minnesota penitentiary, depends the state's action in the case of George B. Orlandy, former vice president of the Mondovi State Bank of Mondovi, who is scheduled to go to trial here Monday, October 29, on charge of conspiracy to rob a bank. Representatives of the state attorney general's department have appealed to Minnesota in an effort to obtain two men from the Minnesota penitentiary as principal witnesses. It is understood.

The Orlandy case has attracted considerable attention throughout the state. It was called for trial early this week but was continued until next Monday on motion of the state. The attorney general's department will be represented at the trial by Assistant J. E. Messerschmidt, who will assist special district attorney Martin Egan.

Orlandy is charged with having conspired to rob the bank of which he was vice president. The institution was robbed on last December 22, late in the day after business hours while Orlandy was in the bank alone. He is of a prominent family in this section.

The defendant claims that while he was alone in the bank, two strangers entered, forced him into the vault at the point of gun, and escaped with \$25,000 in currency and silver. Later in the day, a janitor is supposed to have heard Orlandy in the vault and to have summoned assistance. Two months after the robbery, Orlandy and two other men were arrested, charged with being implicated in the affair. The cases against the other two defendants were dismissed in July last at a preliminary hearing. It is alleged that the three men employed Charles Bladt and Alfred Meyer of St. Paul to carry out the robbery, for which they are claimed to have been paid a considerable sum. The state claims to have confessions from the two men, who are said to be serving terms at Stillwater penitentiary, implicating Orlandy. The trial is expected to attract wide spread attention.

## METHODISTS HAVE HOSPITAL FILLED IN CAPITAL CITY

Dr. J. W. Irish, executive secretary of the Wisconsin Methodist Hospital and Home Association, was in the city Thursday in attendance at the meeting held at the Methodist church in connection with the Methodist Episcopal World Service movement of which he is the campaign director in the West Wisconsin conference. Asked in relation to the report that the Methodist hospital at Madison had been sold he cleared up the situation with the following statement: When we started a maternity hospital in which we owned only the equipment. When the general Methodist hospital began operation we sold the equipment of the maternity hospital, taking a chattel mortgage in part payment therefor. It became necessary to foreclose the chattel mortgage recently in settling the account, from which probably came the report that we had gone out of the hospital business. On the contrary we are expanding to capacity continually and have recently opened a convalescent home accommodating seventeen more patients, which is already filled.

Water brought in an egg case time that may have been laid by a diamond-back snake.

## COLDS THAT DEVELOP INTO PNEUMONIA

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified crocodile that is pleasant to take. Creomulsion is a new medical discovery with two-fold action. It soothes and heals the inflamed membranes and kills the germs that lead to consumption.

Of all known drugs, crocodiles is recognized by the medical fraternity as the treatment of chronic coughs and colds and other forms of throat and lung trouble. Creomulsion contains, in addition to crocodile, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the crocodile goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchitis, asthma, catarrh of the throat and other forms of throat and lung disease, and is excellent for building up the system after colds or flu. It is also effective if any cough or cold, a matter of how long standing, is not relieved after taking according to directions. Ask your druggist, Creomulsion Co., Atlanta, Ga.

# FORBES BRANDS AS FALSE MORTIMER'S STORY OF BRIBERY

Enters Absolute Denial of Testimony as to Fraud in Connection With Contracts

WASHINGTON.—From his place of seclusion here, Charles R. Forbes, former director of the Veterans' Bureau, issued a statement Friday denying as "utterly and absolutely false" the story of Elias H. Mortimer of Philadelphia before the senate investigating committee of alleged bribery and corruption in connection with contracts for veterans' bureau hospital.

"I do not feel that I ought to make any statement in advance of the full and complete testimony which I shall give under oath on the witness stand," said Mr. Forbes' statement. "However, at the insistent urging of my friends and in response to inquiries from the press, I cannot refrain from saying that every charge and every word of testimony, especially that of Elias H. Mortimer, reflecting on my personal or official integrity are utterly and absolutely false and without the slightest foundation."

"The story of the receipt by me of a \$5,000 bribe was not only false but so absurd as to be ridiculous. The only thing I ask of the public is to withhold judgment until my witnesses and I are heard and the full documentary evidence produced."

"In reply to inquiries as to when I will testify, I do not know, as that is entirely within the discretion of the committee."

The committee has decided to hear Mr. Forbes next week if he desires. Meantime the former director is resting on the advice of his physicians.

**STATE TO RESUME GASOLINE PROBE EARLY NEXT WEEK**

MADISON, Wis.—The state's investigation of operations of the Standard Oil company in Wisconsin and other large companies probably will be resumed with further hearings here next week, state officials said Friday. A definite date for the hearing has not been set.

Independent oil companies in the state will be called upon to submit testimony at the hearing, it is said. The investigation was begun by the state department of markets with the assistance of the attorney general's department. Officials of the Standard Oil company were called to testify and two weeks ago independent operators claimed that prices in Wisconsin are set by the Standard Oil company of Indiana.

What action, if any, will be taken by the state department as a result of the investigation has not been determined, it is said. State Marketing Commissioner Nordman said if the investigation reveals sufficient facts, anti-trust suits may be filed.

## SIGNING BONDS MADE EASY FOR BUSY MAGNATES

Signature Machine Relieves Officials of Necessity of Signing Bonds Singly

NEW YORK.—By The Associated Press.—American boasts at least one labor-saving device against which no complaint ever has been directed. It is a signature machine by the use of which high salaried corporation officials and national, state and municipal government officials are enabled to sign their names to checks, stocks, bonds and other documents from five to 20 times at once.

So far as is known only one company controls or has such machines, and its small office in the financial district is almost continuously filled with men of national or international importance. Just now the consul general of Argentina is spending an hour or so a day at this office, signing with one stroke 20 of the Argentine government's new short term notes recently offered on the New York market.

The machine is a ball bearing frictionless arrangement with a maximum of 20 fountain pens attached, in addition to the master pen which the individual operating it grasps. Practically all negotiable or other securities must be countersigned by a high official to make them legal.

With the exception of the five or six machines in the New York office of the company, and one in Chicago, none of the machines is known to be in use anywhere in the world. Numerous smaller machines handling five to ten pens, however, have been manufactured for the use of officials who are required to sign almost countless checks to meet weekly or monthly payrolls.

Men with short names have found it possible, with these machines, to sign their names 12,000 to 15,000 times an hour, but longer names are signed at slower speed.

Only once in the history of the company has one of the signature machines been transported from New York for the convenience of the countersigning official. That was several years ago when the Chinese minister at Washington was too sick to leave his residence at the capital at the moment some Chinese securities were ready for public offering. One of the machines was taken to Washington, set up beside the sick official's bed, and several thousand bonds were signed in that way.

## SOMEBODY FORGOT!

One trainman was killed and several others shaken up when a fast fruit train, of 55 cars, struck an open switch at Litchfield, Minn., piling up on the main right of way and blocking traffic for a complete day. Photo shows the wreckage.

### "MOON" PEDDLER CAUGHT

ISHPEMING, Mich.—Police here captured Bruno Sarvello, 12-year-old moonshine peddler. The boy was tugging a two gallon jug which he was delivering to a soft drink place

from his home. The boy said he was to receive a quarter for his efforts, and had traveled seven blocks to within a stone's throw of his destination when he was arrested. The jug was half the size of the boy.

## FOOTBALL CRAZE SWEEPS GERMANY

Munitions Factories Now Turning Sporting Articles for Various Games

HEIDELBERG, Germany.—Many buildings in Germany which prior to 1914 were used for making implements of war, ammunition or devoted to turning out supplies for the army, are now manufacturing sporting articles for the various games which are more popular today than at any other time in Germany's history. The craze for out door sports has reached proportions never dreamed of in pre-war days.

Football, formerly considered by Germans as being too rough, has become one of the most popular games among school boys and college men. Every small town now has its athletic union, including a football team and meets are held regularly all summer and most of the winter. The passion for out door sports has even invaded the country districts, and the youngsters of the peasant villages much prefer hand ball or foot racing to helping their parents in the fields. The sport race is attributed to the campaign launched in 1919 for the amusement of the thousands of young men who in former times spent years

in Germany's big army. Today the newspapers devote pages and sections exclusively for sports, and there are many sporting journals in Berlin and other cities. Tennis is played extensively, but football has made such rapid strides that even the experts cannot account for its growing popularity, and the factories are working overtime endeavoring to supply the unprecedented demand for "pigskins."

Salt water is generally encountered in drilling oil wells.

## No Corns

The simplest way to end a corn is Blue-jay. Stops the pain instantly. Then the corn loosens and comes out. Made in clear liquid and in thin plasters. The action is the same.

At your druggist

Blue-jay

Mighty Good Remedy  
If your brains won't get you into print, just sign a patent medicine for your stomach.—New York Tribune.

## Eatmor Cranberries

If anything is delicious—it is Cranberry Meringue Pie

Here is the recipe:

One and one-half cups sugar, two cups cranberries, one-half cup cold water, one tablespoon flour, two eggs, one tablespoon powdered sugar, half teaspoon vanilla, two tablespoons powdered sugar. Cook until the berries have popped. Cool a little. Mix smoothly in a bowl the flour and yolk of the eggs; add three tablespoons of the juice of the cranberries; add this to the berries and simmer for three minutes. Stir in butter and vanilla and set aside to cool. Turn filling into deep pie crust previously baked; cover with meringue made from stiffly beaten whites of eggs and powdered sugar. Place in cool oven to set and slightly brown the meringue.

There is a real difference in Cranberries. Insist on getting "Eatmor" brand.

## THIRTY THOUSAND HOMES TO BE BUILT BY FORD COMPANY

Quantity Production at Low Cost Planned; Homes to be Sold to Workers

DETROIT, Mich.—Erection of 30,000 homes on a 5,000-acre tract of land south of the Dearborn plant of the Ford Motor company is planned by the Ford company, according to the announcement of Henry Ford yesterday.

The houses are to be constructed of cement, according to a plan perfected by Thomas A. Edison. The plans call for pouring of concrete into a set of forms, and these moulds can then be arranged into twelve different types of houses, it is asserted. The lumber in the houses is to be obtained from short pieces of timber usually allowed to go to waste by lumber companies.

The houses will be sold to any person who desires to buy them, and at a price which is close to cost, according to Mr. Ford. Purchasers will be given advantage of the difference in land values now and when the tract of land was purchased eight years ago.

## HARMONY STORE IS BURGLARIZED

HARMONY.—Thieves broke into the clothing store of Ed Norris here some time during the night and took clothing valued by the proprietor at between \$300 and \$400.

Heavy winter clothing, including mackinaws, overcoats, and caps, comprised the bulk of the lot. Neither the cash drawer nor the safe were molested by the intruders, who evidently came prepared to carry away a plentiful supply of clothing.

The robbers gained entrance by breaking a rear window. The theft was first noticed this morning when the store was opened for business. Sheriff C. B. Christensen of Preston was immediately notified and was in Harmony this morning investigating the case.

## NORA HAS NEVER PLAYED OWN HOUSE

Nora Bayes, the famous international star, who comes to the La Crosse Theater Wednesday Oct. 31 in her new "Revue Intime," is one of the few celebrities of the American stage to have a theater named for her. The "Nora Bayes" theater in New York, situated atop the Forty-Fourth street Theater, is one of the unique playhouses of Manhattan, and although Miss Bayes has appeared many times in the big Forty-Fourth street Theater below, and in fact opened that house as star of the George M. Cohan Revue, she has never appeared in her own theater.

PAIR, ON WATER SKIS, CROSS FRISCO BAY ON FOOT

OAKLAND, Calif.—By The Associated Press.—Two men walking tandem on a pair of specially constructed skis crossed San Francisco bay, negotiating the three and one-half miles between San Francisco and the Western Pacific Railroad company pier in three hours, thirty-three minutes. They were the Rev. W. W. Kelly of Weaverville, and D. F. Sheldon of Pomona.

A third man, A. H. Sheldon, inventor of the skis, who attempted the trip at the same time, suffered an accident to his walking gear in midbay, and was taken aboard an accompanying launch.

## JOINT-EASE FOR Stiff, Swollen Joints RHEUMATIC OR OTHERWISE

Says: "When Joint-Ease Gets in—Joint Agony Gets Out."

It was a high-class pharmacist who saw prescription after prescription fail to help hundreds of his customers to get rid of rheumatic swellings and stiff inflamed joints.

And it was this same man who asserted that a remedy could and would be compounded that would make creaky, swollen, tormented joints work with just as much smoothness as they ever did.

Now this prescription, rightly named Joint-Ease, after being tested successfully on many obstinate cases, is offered through progressive pharmacists to the millions of people who suffer from ailing joints that need limbering up.

Swollen, twingy, inflamed, stiff, pain-tormented joints are usually caused by rheumatism, but whatever the cause Joint-Ease soaks right in, through skin and flesh and gets right to and corrects the trouble at its source.

Remember Joint-Ease is for ailments of the joints, whether in ankle, knee, hip, elbow, shoulder, spine, or finger, and when you rub it on, you may expect speedy and gratifying results.

It is now on sale at druggists everywhere for 60c a tube.

FRED H. HARTWELL

LA CROSSE WIS.

NOW is the time to buy WINTER UNDERWEAR. It costs less at SPURGEON'S.

## BOSTON PRODUCT PREFERS TO PLAY ROLE OF "TOUGH"

The "tough girl" of "Spice of 1922" which is to be at the La Crosse Theater two days, Saturday and Sunday Oct. 27 and 28 comes from Boston.

Beryl Downing is her name, and she likes "tough" parts. "I found the stage was glutted with the so-called 'refined young women,'" says Miss Downing. "There were not sufficient positions to go around. One day I came to the conclusion that 'highbrows' were lower paid performers than 'lowbrows' because, in comparison, there were so few of the latter. I became a 'tough girl' of the stage. I'm still at it. And I must confess I like it."

## ELECTRIC RATES LOWER IN BANGOR BY STATE DECREE

The Wisconsin railroad commission granted the request of the Bangor village trustees for a reduction in light rates, effective November 1. On commercial current the rate has been reduced as follows:

First 20 kilowatt hours per month, net 15c.

Next 20 kilowatt hours, per month, net 13c.

All over 40 kilowatt hours per month, net 10c.

A discount of one cent per kilowatt hour is allowed on bills paid in 10 days.

Street lights \$19.00 per lamp until midnight. All night service, \$24.00 per lamp.

## NO DATE SET FOR NAVAL WRECK TRIAL

SAN PEDRO, Calif.—A date for the opening of the trial by court martial of eleven naval officers implicated in the destroyed disaster off Hondo, Calif., September 8, will be determined soon, according to Vice Admiral H. A. Wiley, president of the court.

Until 1914 Germany produced the bulk of her own foodstuffs.

## FORMER CHIEF OF VETERANS' BUREAU DIVORCED BY WIFE

Awarding of Decree Two Weeks Ago Revealed at Seattle Thursday Night

SEATTLE, Wash.—After being carefully concealed for more than two weeks, it was discovered here Thursday night in a search of court files that Mrs. Mary Forbes, wife of Colonel Charles R. Forbes, former director of the United States Veterans' bureau and who has been mentioned prominently at a hearing being conducted by the senate committee at Washington, D. C., investigating alleged graft in connection with forwarding of contracts for government hospitals, was granted an interlocutory decree of divorce by Judge Mitchell Gilliam of the King's county superior court on October 11.

## Wearisome coughing—

need not be endured long. Dr. Bell's Pine-Tar Honey will stop it quickly by clearing away the heavy phlegm and reducing inflammation in your chest and throat. It combines just such modern medicines as your doctor prescribes—with the soothing pine-tar honey that generations have relied upon to break up coughs. Keep Dr. Bell's on hand for all the family.

All druggists. Be sure to get the genuine.

DR. BELL'S Pine-Tar Honey

warding of contracts for government hospitals, was granted an interlocutory decree of divorce by Judge Mitchell Gilliam of the King's county superior court on October 11.

The suit was handled with the utmost secrecy and efforts were made to conceal both the action and the granting of the divorce. No mention of Forbes' government or business connections was made in the complaint. Colonel Forbes was referred to in the decree merely as Charles Forbes.

NOBEL MEDICAL PRIZE TO TORONTO DOCTORS  
STOCKHOLM.—The Nobel prize for medicine for 1923 was awarded to Dr. F. G. Banting and Dr. J. J. McCleod of Toronto for the discovery of insulin.

## DOCTORS NOT AS WELL EQUIPPED AS IN PAST IS CLAIM

CHICAGO, Ill.—Medical schools are turning out doctors less ably equipped to serve their ordinary patients than were the doctors educated in more rugged surroundings, Dr. F. H. McMechan, of Avon Lake, Ohio, secretary of the American Medical Editors' association, declared at the meeting of that organization Thursday night. He made a plea for new methods in medical education which "will produce doctors equipped to operate without million dollar hospitals. 'Fulltime medical education in marble halls,' Dr. McMechan said, 'is not producing practitioners, qualified to cope with the needs of the average American community of today.'

# PRINT PAPER MEN INTERESTED IN FIRE PREVENTION WORK

Plan Conference of Papermakers from Three States; Reformation also to be Discussed

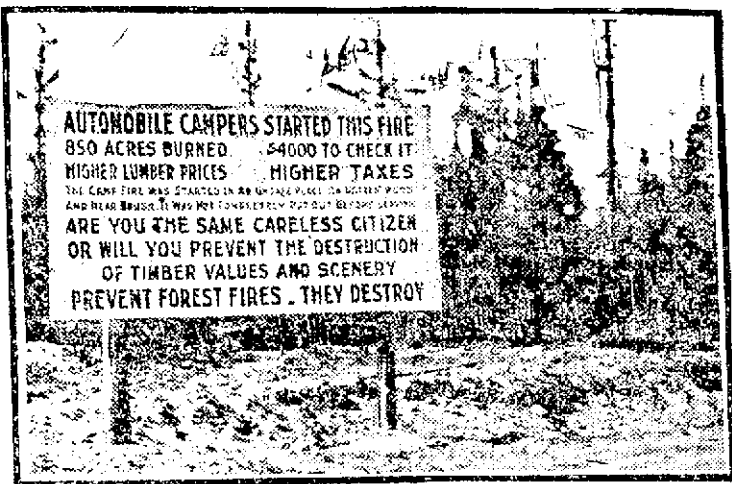

MADISON, Wis.—Plans for a conference of paper manufacturers of Wisconsin and probably Minnesota and Michigan to outline a program of reforestation and fire prevention are being considered as a result of a meeting of paper and pulp manufacturers at Wausau this week where a state association was organized. The state association was organized at the S. Hall state director of conservation, stated today.

The conference of manufacturers will not be held until early next year, it was said. It will be at some northern Wisconsin city, under temporary plans.

Eighteen paper mills in Wisconsin were represented at the Wausau conference, which was sponsored by the American Pulp and Paper Manufacturers' association. Methods for handling a former conservation conference were considered. D. C. Kiersten was elected president of the association which was formed.

Paper mill manufacturers are coming to realize that there is great need for a campaign for reforestation and fire prevention, according to Kiersten. It is because of this that they favor a conservation program.

## A LESSON IN FIRE PREVENTION

**AUTOMOBILE CAMPERS STARTED THIS FIRE**  
850 ACRES BURNED. \$4000 TO CHECK IT  
HIGHER LUMBER PRICES. HIGHER TAXES  
THE COST FIRE AND STARTED IN A WOODED AREA IN THE  
LAKE SUPERIOR REGION. THE FIRE WAS CAUSED BY A CAMP  
FIRE WHICH GOT OUT OF CONTROL. THE FIRE BURNED FOR  
SEVERAL DAYS AND DESTROYED A LARGE AREA OF WOODLAND.  
**ARE YOU THE SAME CARELESS CITIZEN  
OR WILL YOU PREVENT THE DESTRUCTION  
OF TIMBER VALUES AND SCENERY  
PREVENT FOREST FIRES. THEY DESTROY**

Here's a sermon in fire prevention far better than any fire marshal or fire chief could preach. This sign, erected by the U. S. Forestry Service in the Kaniksu National Forest in Idaho, shows the havoc one careless camper unwittingly wrought. It ought to be a good reminder to others.

Underwriters hold 85 per cent of all fires preventable.

**Coughs annoy unnecessarily**

Check those violent coughing spells that bring upon you unfavorable attention. Dr. King's New Discovery stops coughing quickly by gently stimulating the mucous membranes to throw off clogging secretions. It has a pleasant taste. All druggists.

**DR. KING'S NEW DISCOVERY**

**BABY ON OPERATING TABLE:**  
WORRY FATAL TO MOTHER

PLYMOUTH, Wis.—Mrs. Alvin Pagel, 37 years old, was a patient in the Plymouth Hospital. Her culture brought her to the hospital for three years ago when she was in the hospital for a long time. The child was born in the hospital and the mother was in the hospital for a long time. The child was born in the hospital and the mother was in the hospital for a long time. The child was born in the hospital and the mother was in the hospital for a long time.

**WASAT TEACHER WILL**  
HEAD LAU CLARE SCHOOL

LAU CLARE, Wis.—Clarence S. Snyder, vice principal and instructor at the Wausau high school for ten years, has accepted the principalship of the Lau Clare high school as successor to the late P. M. Bray. It was announced here on Tuesday. Mr. Snyder will arrive in ten days to take over his new duties.

## EUROPEAN AUTHORS SEEK INSPIRATION IN UNITED STATES

Many American Classics and Other Books also Translated into Foreign Languages

NEW YORK.—By The Associated Press.—While stage and concert platform present the culture of Europe to New Yorkers, the city's bookstalls are cluttered with foreign books and magazines which bring back to its native hearth the influence which Main street and Broadway have had on the old world.

Current publications from the European capitals lately arrived in the book shops of the city indicate that youthful writers and artists, and even many of those who already had achieved fame before the war, are turning to this side of the Atlantic for inspiration.

From France, Germany, Italy, Spain, the Scandinavian countries and even Russia, come lists of translations of books by Americans. Magazines vie with each other in translations of the American "classics" and of the work of younger men who have helped in the renaissance of Anglo-American letters which has left its mark throughout the reading world. Poe, Whitman, Cooper, Martineau, Hawthorne, Melville and many other American writers are represented in translations lately arrived from Paris, Stockholm and Berlin.

Younger writers enthusiastically proclaim their debt to America and prize the power, energy and youth of the new world; their literary achievements reflect eager consumption of everything American.

Books of music show that composers have been using American Indian and American negro melodies as the basis for their work, and that the possibilities of the use of jazz are seriously considered. Less serious publications tell of American popularity is so great that they can almost name their own salaries.

German and Danish architects insist that the jagged skyscraper skyline of the American city is the forerunner of a new modern architecture, the beauty of which is comparable only to the sheer simplicity of early classic forms.

Serious students of aesthetics point to the United States as the only country that has escaped from the ruin of western European civilization which, they say, followed the world war. From the fertile fields of the great middle west, they assert, will come a national culture which will dwarf the efforts of a decadent Europe.

Arizona ranks fifth among the gold producing states of the nation and sixth among the silver producing states.

Arizona ranks fifth among the gold producing states of the nation and sixth among the silver producing states.

## WINONA POLICE HALTED IN RAIDS ON MINT MACHINES

D. E. Coffman of La Crosse En-  
joins Department; City to  
Fight Injunction

Winona police were restrained  
Thursday in their activities to pre-  
vent installation in that city of an  
alleged gambling device in the form  
of a mint vending machine by a tem-  
porary injunction issued by Robert L.

Looby, district court commissioner,  
prohibiting Chief H. C. Reban and his  
subordinates from confiscating the  
machines or interfering with their in-  
stallation or operation pending out-  
come of litigation on the subject.  
The injunction was issued at the re-  
quest of Attorneys F. A. Duxbury of  
Caledonia and F. E. Withrow of La  
Crosse, counsel for D. E. Coffman of  
La Crosse, agent for the machine in  
this territory, after Winona police had  
attempted to stop installation of the  
machine in local stores, confectioner-  
ies, and other establishments.  
Basis for the application for the in-  
junction was a complaint filed in dis-  
trict court by Mr. Coffman against  
Chief Reban, in which the La Crosse  
man asserted that the mint machines

were a legitimate business device, and  
asked that police be prohibited from  
interfering with operations of himself,  
his agents, or merchants who instal-  
led the machines.  
Prosecuting Attorney D. V. Knapp  
and County Attorney Morris J. Owen  
are prepared to institute action to  
obtain a dissolution of the injunction  
at the earliest possible date.  
Chief Reban said a large quantity  
of mints and a large number of vend-  
ing machines, which the authorities  
class as gambling devices had been  
shipped into the city and were in pro-  
cess of distribution when he inter-  
fere only to be restrained by the in-

junction. He said a similar situation  
had existed at La Crosse and Minne-  
apolis.  
**FORMER BADGER OFFICIAL  
GETS CALIFORNIA JOB**  
MADISON, Wis.—John Boardman  
Steven, formerly assistant examiner  
of the Wisconsin civil service com-  
mission, has been made secretary of  
the Los Angeles county civil service  
commission, according to a report re-  
ceived here. He served in the capi-  
tol from 1916 to 1919 and then went  
to the Milwaukee civil service com-  
mission for several months and then  
to the New York commission from

where he was selected for his new  
post in a nation-wide examination. He  
succeeded a former secretary of the  
Wisconsin commission, F. E. Doty,  
who left for the Los Angeles post fif-  
teen years ago.  
**KISSING MARRIED WOMAN  
COSTS HIM JUST \$5,000**  
NEW YORK.—Five thousand dol-  
lars was the price fixed by a jury in  
supreme court in Brooklyn for a stolen  
kiss.  
The jury ordered Louis Goodman  
to pay this amount to Mrs. Alice Mer-  
cer, who alleged that Goodman had  
kissed her while they were in the

hallway of the house in which she liv-  
ed, and during her husband's absence.  
Goodman is married and has two  
children. Mrs. Mercer is 29 years  
old and pretty.  
Goodman tried to belittle his of-  
fense by pointing out that Mrs. Mer-  
cer had admitted she made no outcry  
nor did she summon assistance when  
the kissing occurred.  
Vancouver, B. C. is rapidly becom-  
ing an important wheat exporting  
port.

## DOERFLINGER'S WEEDS, WEEDS

Now is the time to get your weeds for winter bou-  
quets. We have picked out a way whereby you  
can make loads of thrilling Christmas gifts and  
economize, "like the big folks say." It's always a  
pleasure to present gifts and a bouquet of painted  
ghost weeds that you made all yourself would be  
just the thing.

So come down to the Doerflinger store. In the  
paint department they have everything from mam-  
moth oak leaves to perky pelican bills. And the  
paints and brushes! You simply don't have to fret  
about that. They'll fix you up with all the junk  
you need; put a dot here and a dart there and the  
honor is yours.

On Saturday we will have a special demonstrator  
and instructor in this department.

We sell all kinds of weeds, both painted and un-  
painted.

PAINT DEPARTMENT. BASEMENT.

Ask for our Cash Discount  
Stamps. One Stamp with  
every 10c purchase. A book  
of 500 Stamps worth \$1.00  
in cash.

## RUSSIAN BUILDS AN AIRPLANE WITH ADJUSTABLE WINGS

Tests at Harbin Prove Device  
to be Practicable; Pilot  
Can Alter Flight

HARBIN, Manchuria.—By The Associated Press.—An airplane with adjustable wings, enabling the pilot to alter his speed materially during flight, has just been given a series of tests here with highly satisfactory results. The inventor, J. J. Dill, a Russian engineer, believes his device will correct a long recognized defect in the science of air navigation.

Dill's invention consists of an apparatus for altering the "angle of incidence" of the plane while flying. In tests it was found possible to alter the angle of incidence, causing a corresponding difference in speed ranging from 150 kilometers an hour to 50, and to make a landing within a space of 15 meters.

A 100 horsepower French motor was used and the airplane had a wing area of approximately 33 square feet. The pilot was a Russian, Kud. The plane, attached to Marshall Chang, was flying off.

Dill claims his machine can attain a high speed 40 per cent greater than that attainable by the rigid type of airplane; a low speed 26 per cent less and a climbing speed 31 per cent faster.

## WOMAN MAY BE DUCKED UNDER ANCIENT CHARGE

NEW YORK.—The first conviction on the ancient "common scold" charge in New Jersey in some time was returned at Belvidere, in the case of Mrs. Liske Szekeros of Phillipsburg.

Witnesses testified the defendant continually called them names and that she had cried false stories about them. She will be sentenced next week.

Mrs. Szekeros is the second woman in the state to be tried on a common scold charge in ten years. The old law provides that a person found guilty on such a charge may be ducked at the town ducking stool.

## DIPHTHERIA AT KENOSHA

KENOSHA, Wis.—Two new cases of diphtheria in this city have developed, bringing the total number of cases reported here to fourteen. The epidemic is said to have claimed one life.

## 600 GALLON STILL FOUND

GRANDON, Wis.—What is believed to be the largest still ever discovered in this part of Wisconsin was destroyed by prohibition agents near Wabeno. The still had a capacity of 600 gallons of moonshine.

## STEAMERS LIFTED OVER HIGH HILLS BY MARINE LOCKS

Climbing Mountains in a Ship  
Unusual Experience of  
Visitors in Sweden

TROLLHATAN FALLS, Sweden.—By the Associated Press.—Climbing mountains in a ship was the unusual experience of many American visitors to the Gothenburg exposition when they made the trip over the historic Gotha Canal from Gothenburg to Stockholm.

Marine locks in flights of five or six carry tourist ships through granite hills from river to lake, until the canal reaches an altitude of more than 300 feet in the highlands of picturesque southern Sweden, and then the ships begin their trip down stairs until they make their way to the level of the Baltic sea, and, after a short voyage on the open sea, finally enter lakes again and slip into the back door of Stockholm through fresh water.

It takes two and a half days to make the inland journey of 360 miles from Gothenburg to Stockholm. The actual canal is only 54 miles long, but 58 locks are passed in avoiding

the falls in rivers and ascending to the high lakes in the interior.

Fifty miles of the trip is through the Gotha river, and here at Trollhatan Falls the canal passes around the celebrated falls which give southern Sweden much of its electrical power and are the seat of some of its greatest industrial concerns. Here is the great plant which supplied the Bolshevik government with 500 locomotives, and recently sent 125 locomotives to Argentina.

In the early days of the Bolshevik government, when Lomonosoff was in charge of the effort to re-equip the Russian railways, Sweden was given a contract for 1,000 locomotives. This plan was dangled before the eyes of other industrial nations by Bolshevik leaders, who jeered at them for their failure to recognize Russia and share in the great profits promised from participation in its rehabilitation.

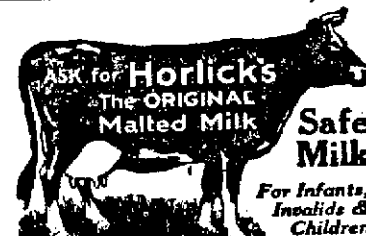

The Swedes insisted on having gold in advance on the locomotive order. Five hundred were finally completed and delivered. Then the work stopped although the Swedish manufacturers still had Russian money which had been advanced for materials. The Swedes altered the plans for the locomotives to meet the needs of the Argentine railways, and are today carrying on a lively business with the South American republic which has enabled the manufacturers to return to Russia its advances on cancelled orders.

The Gotha canal was originally begun in 1800, when the Trollhatan

Falls were successfully locked. The complete waterway between Gothenburg and Stockholm was first opened in 1832.

## HOSPITALS NOW THE BIRTHPLACES OF FUTURE GREAT

Big Proportion of Children Hospital Born, Says Physician; Applies to City and Country

CHICAGO, Ill.—Tourists seeking the birthplace of future famous Americans will visit no ancient houses hidden in ill-kept streets, nor vine-covered log cabins keeping the memories of the great one's birth fresh in the minds of generations. These distinctively American institutions have passed, according to Dr. Richard R. Smith, of Grand Rapids, Michigan, eminent gynecologist attending the convention of the American College of Surgeons here.

The farmer boy, as well as the city, is seeing his first daylight in the maternity ward of a hospital, Dr. Smith declared. "The call in the night does not come as often as it did in the country, because the rural doctor is sending his patients to the hospital."

Science demands that everyone be born in a clean, unromantic hospital, thereby ruining the first pages of the orthodox biography of the great, the surgeon said. In many communities a quarter of the children are hospital born and in certain localities the percentage runs as high as 75, he said.

"This tendency alone providing as it does better care for the mother and child, has greatly lowered the percentage of infant mortality," Dr. Smith said. "The fact that women on the whole are leading a more rational existence, are indulging in sports, are dressing more sensibly, are other factors that have cut down

the death rate." Dr. Fred H. Albee, commissioner of rehabilitation for New Jersey, and president of the American College of Rehabilitation of New York, told of the art of making a piece of the rib, or shingle, into a finger for one man, a thumb for another and a chin for a third.

The shingle, from which slivers have been taken, will grow back to its normal size, Dr. Albee said, and the sliver which is grafted into another bone will grow to the size demanded in the discharge of the duties of that particular bone.

**SIMPLER ADVERTISING**  
**URGED BY OHIOAN**  
ST. LOUIS, Mo.—A plea for simplicity in advertising was made by William N. Bayless of the Tiffany Bayless company of Cleveland, Ohio, in an address Friday before the convention of the Direct Mail Advertising association in session here.

He urged choice selection of color in advertising, saying that "it is now almost universally recognized that color has almost as much emotional appeal as music," but added that "one of the greatest needs today in our modern color work is more simplicity."

**YALE SCHOOL IN CHINA**  
**UNDER BOMBARDMENT**  
WASHINGTON, D. C.—Minister Scherman at Peking advised the state department that the Laven of Chung-Sha, China, was bombarded October 23, during hostilities between Chinese factions. The Yale missionary institute is located at Chang-Sha.

## PROGRESSIVES OUT FOR RAIL AND TAX LAWS SAYS NELSON

WASHINGTON.—By The Associated Press.—Constructive legislation, particularly with reference to the railroad and taxation, is the aim of the organized group of progressive republicans of the house, Representative Nelson of Wisconsin, its chairman.

### Remember Tonsiline

TONSILINE is the National Sore Throat Remedy—it is sold in every State in the Union. Most people buy a bottle occasionally because most people occasionally have Sore Throat. They buy it for the prompt, welcome relief it brings to sufferers from this malady. You can forget Sore Throat if you will only remember TONSILINE and get the bottle NOW that waits for you at your druggists. Look for the long necked fellow on the bottle when you get it. 85 cents and 60 cents. Hospital Size, \$1.00.

said Friday in outlining the general policy of the organization. The hope is to obtain this without an open fight with the republican organization. Mr. Nelson declared, but he emphasized that the group will not hesitate to fight if that becomes necessary.

Geologists think they have found a big diamond mine near Nashville, Ark., but we don't.

## GIRL STUDENTS ARE BECOMING LOPSIDED SAYS FRISCO "P. D."

SAN FRANCISCO, Cal.—Women students at the University of California are tending toward the left or right oblique, and the interrogation

mark in shape, according to Miss Ruth Elliott, director of women's physical education. From carrying books of considerable weight under the same arm, through force of habit, the feminine students are becoming lopsided, Miss Elliott declared Friday. The ques-

tion mark figure she ascribed to the habit of studying with shoulders stooped. An even distribution of books under both arms and assiduous practice of a "daily dozen," are remedies for the "unfortunate condition," suggested by Miss Elliott.

## Britishers Tell Us Why Lloyd George Came Over

Realizing the far-reaching possible effects of Mr. Lloyd George's tour in Canada and the United States, THE LITERARY DIGEST cabled to representative daily and weekly newspapers in England and Scotland asking their opinions of the reason for his coming and what they thought he would accomplish by his "swing around the circle." The illuminating responses of the overseas editors who cabled their verdicts are reproduced in the leading article of THE DIGEST this week. They run the gamut from good-humored comment to virulent assault, and will make entertaining reading for the American people. Other striking news-features in this week's DIGEST are:

### Pinchot Puts Prohibition Up To Coolidge

How the press of the country views the Pennsylvania Governor's challenge to the President.

### China's New Ten-Million- Dollar President

Just as the world was about to forget China, it breaks into the news again with a new president, a new war, a new constitution, the celebration of its twelfth anniversary as a republic—and an election scandal.

### Ford Politics in Muscle Shoals

The why's and wherefores in his dicker with the Government for Muscle Shoals and his attack upon Secretary of War Weeks.

### Slathers of Soviet Gold

Spent where it should do the most good to spread Communism in Germany, is said by the Communists to be yielding a good harvest at the present time.

## FORD URGES STRICT ENFORCEMENT OF PROHIBITION LAWS

Approves President Coolidge, But Declares for Tighter Lid on Illicit Liquor

DETROIT, Mich.—Henry Ford favors President Coolidge but he is more strongly in favor of a strict enforcement of the Volstead act, he made known Thursday. In a statement made by the automobile manufacturer, he asserted that he believed the president could dry up the country if he wanted to. "It is more strength for Mr. Ford asserted. 'The president knows it is the right thing to do. He also knows the women of the nation are going to have a lot to say if he does not act.'"

Mr. Ford believes that not one woman in 5,000 wishes to see the former anti-prohibition days back. He also expressed the opinion that enforcement was not as strict last month as previously and gave President Coolidge credit for bringing about the change.

Repeating his previous statement that if he were in charge of enforcing the dry law he would call upon the army and navy if necessary to see that the law is enforced. He used here as an illustration, asserting that the soldiers at Fort Wayne could take up liquor in a short time and in the prohibition of effect on prohibition law, he would stop for 12 months of the law.

"Anyone who is afraid to enforce the amendment is a pitiful coward," Ford asserted. "I never drank but I am for prohibition because I know its definite benefits."

## INVADERS COME WITH TWO GREAT WINS TO CREDIT

Have Defeated Wheaton and Northwestern Colleges this Season

## THOMPSON TO BE SENT IN AT QUARTERBACK AGAIN

Plan Big Parade into Downtown Section Friday Night

THE game between Chicago Y. M. C. A. college and La Crosse Normal school will start promptly at 2:30 o'clock Saturday afternoon at Normal field. The game promises to be a real battle and local fans will not be disappointed when they see the two teams out on the field and fighting.

R. C. Tapp, big ten official, will act as referee. Lang of Harvard, will be umpire and Doc McGovern will be head linesman.

Beaten by Valparaiso  
The Chicago eleven suffered defeat at the hands of the Valparaiso team last Saturday and have been going through strenuous practices since that time trying to make good their weaknesses. The team is coming here with a determined spirit and are set on taking the game.

Their spirit cannot daunt that of the Maroon and Grey followers as enthusiasm is running riot through the local school and town people.

A pep meeting will be held at the school tonight with a line of march downtown. No theater will be rushed.

Bob Hodge and Norman Schultz will be on the job to lead the cheering. The Normal band will head the parade.

Thompson who played a flashy game at Dubuque will start the game as quarterback. He will be assisted in the backfield by Hutchings, fullback; Ettinger and Reynolds as halfbacks.

## FIRST PRESBY'S CONTINUE WITH CLEAN SLATE

HENRY CASTELLANE

Oh, girls, you just must meet Mons. Henry Castellane, halfback on the Harvard football squad. Henry is one of those blue bloods George Barr McCutcheon is always writing about. Henry is a nephew of Count Boni of Anna Gould note, and is the son of Count Stanislaw Castellane of Paris. Isn't that just too thrilling for syllables?

## Keep Up the Old Chatter--- Chicago Y. M. C. A. Next

"Choke Chicago." is the slogan at the Normal school this week and the pep meeting held at the regular assembly hour yesterday showed that the gang certainly was ready to trail loose on them. Keep it up, gang.

Wanted: Someone to keep Coach "Tubby" Keeler supplied with gum at the game on Saturday. "Tubby" lets away with more gum during a game than most people do during the year. All is well as long as "Tubby" keeps chewing as that is a sure sign of a win.

Warning to girls: A football field is not a bathroom. Remember to dress for cold weather. Come dressed warmly and you'll enjoy the game. Leave your glad rags at home and wear them to the mixer after the game. The fellows will give you enough time to doll up.

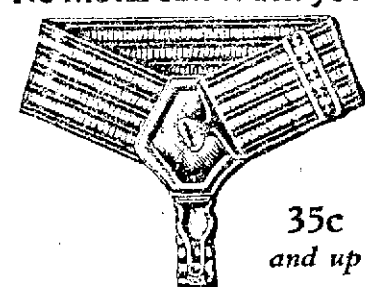

Red Reynolds is out of practice for several days having dislocated several of his vertebrae.

Headquarters for the Chicago Y. M. C. A. football squad will be at the Hotel La Crosse. They arrived here today. The pep parade of the school will circle about the hotel tonight and give the men a sample of La Crosse pep.

School rosters will sit on the west side of the Normal field at the game tomorrow. Everyone is asked to be there.

No metal can touch you

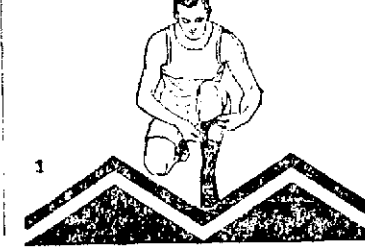

These garters are made of 1 1/2 inch peppy, long stretch elastic. They fit your legs smoothly and are extremely comfortable. Long wear in every pair. Ask for them by name—Wideweave PARIS.

## MADISON IS GAILY DECORATED FOR ITS ANNUAL HOMECOMING

Dozen Special Trains to Carry Most of 36,000 in for Traditional Clash

MADISON, Wis.—Madison was gaily festooned Friday for what is believed by officials will be the greatest homecoming event staged by the University of Wisconsin. The thousands of visitors who will be here Saturday for homecoming and the annual football clash between Wisconsin and Minnesota universities began to stream into Madison Friday and before morning the town is expected to be overflowing.

Throughout the town, the Wisconsin and Minnesota colors are exhibited in many ways. To incite greater interest in decorative plans, prizes are offered to the business house with the best display and to the fraternity or sorority house adjudged the most artistically decorated.

A dozen special trains which will come from Minneapolis and St. Paul, Chicago, Milwaukee and other large cities will carry most of the approximately 36,000 fans who will witness the football encounter. The first of the specials will arrive Friday night, others coming early Saturday morning and just before the game, which is scheduled to get under way at 2:30 in the afternoon. Two special trains will bring Minnesota boosters, expected to be 1,500 strong.

A university carnival, class reunions, annual homecoming ball, and the annual cross country track meet between Minnesota and Wisconsin teams will be side shows of the gridiron clash.

## EASY PRACTICE HELD ON FRIDAY AT MICHIGAN

ANN ARBOR, Mich.—The customary easy last practice before the game Saturday with the Michigan Aggies was held by Michigan Friday. Defensive work against Aggie formations and individual instruction in finer football points have formed the basis of the week's workouts of the Yost men.

Few changes in the lineup are expected Saturday, but the final periods Coach Yost hopes to bring many substitutes into play. If any shifts are to be made in the Iowa game next week, they will undoubtedly be worked out in the Aggie game tomorrow. The Aggie eleven is rated stronger this year than previously and this may force the Michigan squad to work harder than is anticipated, with the result that they may have to uncover new plays which are being held in reserve for Iowa, or prevent working out of as many second string men as hoped.

## FREE CHICAGO YOUTH IN DROWNING CASE

ALLEGAN, Mich.—Fred, 14, of Chicago, charged with manslaughter in connection with the drowning of Miss Edna Ota at Saugatuck, Mich., was declared not guilty, by a jury.

Petroleum cake is used for fuel and for manufacturing electrodes.

## GOVERNORS OF TWO STATES SEE GAME TOMORROW

MADISON, Wis.—By the Associated Press.—Among the most interested spectators at the annual Minnesota - Wisconsin gridiron feast here tomorrow will be governors of the two states. Governor Preus of Minnesota has obtained reservations and is coming to Madison in the hope of seeing his state come out victor. On the other hand, Governor J. J. Blaine will be found in the stands, hopeful for a Wisconsin victory. Governor Preus' reservations were obtained from athletic officials yesterday.

## SPORT BRIEFS

CHICAGO, Ill.—Rumors that Roger S. Hornsby, batting champion of the National league, would be traded in a deal involving the transfer of four players to the St. Louis Cardinals were denied by officials of the St. Louis club, who stated Hornsby was neither for trade nor for sale.

CHICAGO, Ill.—The American league has set aside a fund of 50,000 for relief of veterans players where Ben Johnson announced.

LANSFORD

Lanpher quality means more than usual this season. It takes a fine grade of fur to produce the slightly rough Lanphers that are so much in vogue. The velvety texture of style Lansford is most pleasing to the eye—as are the new light colorings.

## UNTIMELY END TO SEASON'S ASPIRATIONS WOULD NOT BE SURPRISE TO BIG TEN TEAMS

CHICAGO, Ill.—An untimely end to the season's football aspirations would not bring surprise to any of the big ten contestants, judging from Friday's reports from their training camps as the heavy practice of the week ended.

Wisconsin, with a homecoming crowd of 36,000 on the side line will meet its traditional foe, Minnesota, with its own strength in doubt. Although every Badger player is in good condition, Coach Ryan has warned them they face possible defeat.

The Minnesota team at Madison ready for the game, although handicapped by injuries and ineptitude, has a big determined aggregation that has always been a formidable foe to Wisconsin. The Badgers expect to see the Gopher attack built around Martineau, the speedy, powerful halfback.

Chicago, after its victory over

Northwestern does not expect trouble in downing Purdue. Iowa and Ohio both defeated, will have a consolation contest of their own at Columbus tomorrow. Both teams having finished a week of strenuous practice. The elevens are reported to be evenly matched despite the fact that the Hawkeyes are likely to be playing without the services of Parkin at quarterback.

Coach Yost contemplates sending his second string eleven against the Michigan Aggies Saturday in a practice game that is not expected to be a test of the Michigan team's strength.

# BOTH HEADLINERS CONFIDENT OF VICTORY FRIDAY EVENING

## CUNNINGHAM AND GILL IN BEST OF CONDITION FOR MIX

Odds Slightly Favor La Crosse Boy to Beat St. Paul Mauler Tonight

## BIGGEST CROWD IN HISTORY EXPECTED OUT FOR OPENER

Show to Start Promptly at 8:30 Tonight

"I'm in splendid condition and I'm going to win," Jimmy Gill, La Crosse boxer, said tonight. "I've trained religiously and I'm in great shape," Bates Cunningham, St. Paul fighter, said.

HERE'S what the two headliners in the big boxing show to be staged by the local post of the American Legion had to say this morning, only a few hours before they are to meet in the ring at 8:30 tonight. To be honest, both of the fighters appear in splendid shape and if the post is dependent upon physical condition the winner of tonight's go between these two 145 pound scrappers is a toss-up.

Odds Favor Gill

The odds slightly favor the La Crosse boy, because his friends know that he will be fighting, not only to win, but to show his skill in the fighting game. His manager, William Schellert, has predicted that his man is going after the best from the time the gong sounds and that he, Schellert, wants a knockout.

Tonight's fight promises to draw one of the biggest, if not the biggest crowd ever gathered for a fight on the local scene. This is probably due to the publicity given the fact that upon the results depend Gill's career.

Julius With, La Crosse, who meets Dennis Deane, a clever youth from the Twin Cities, in the six round semi final, says he's going to win, that he is in condition to do it and that time will tell on an exhibition of speed. Friends of Percy Nolan say that local center has been training faithfully in splendid shape and assert he will be an easy winner in his four round bout with Battling White, Minneapolis.

In view of the fact that tonight's four-round fight with an Elva Chairo boy will be his initial appearance as a professional, fighting under the rules and regulations of the Wisconsin boxing commission, no little interest attaches to the battle in which Andy Staff, La Crosse featherweight, appears.

"They've never seen me do my stuff in La Crosse," modestly insisted Andy this morning. "Two nights ago I passed in friendly bouts at which entertainers and such stuff, believe me, tonight I'm going to show them what I got. I've just got to beat this fellow from Elva Chairo."

Good House Indicated

Advance sale of tickets at the S. & E. Clair store and at Wittenberg's on the north side, indicates a good

## MORE THAN 2000 STUDENTS AND GOPHER ALUMNI THROG MADISON FOR HOMECOMING

MINNEAPOLIS, Minn.—More than 2,000 students and alumni of the University of Minnesota were arriving in Madison, Wis., today to witness what they hoped would be the apotheosis of Wisconsin's homecoming by the Gopher grid stars, tomorrow afternoon.

Augmented by the large student body and band, which traveled in a special train, the Minnesota football squad left Minneapolis last night and arrived in the Wisconsin city today. In addition, hundreds of alumni from all sections of the state, returned to Madison and were depositing themselves there during the day, awaiting the game tomorrow for which reservations were made through the Gopher institution here.

Knowing that his men will be up against the strongest competition so far this year, Coach Bill Spaulding was prepared to throw the team's composite strength into the contest tomorrow. Wisconsin's overwhelming victory over Indiana last Saturday prompting him to use his highest caliber men.

Minnesota's forward passing, which to date has been a negligible quantity,

will be brought into play more frequently with the Badgers tomorrow, as Captain Earl Martineau's passing hand has almost fully recovered from the injury which put it out of commission for this task. The Badgers will also be given large doses of line smashes and plunges by Liddberg at halfback, and either Peterson or Oster at full, while Graham at quarter, together with Martineau, will dish out many tastes of end runs and broken field running, if the chances merit it.

Eklund and Merrill will begin at the endposts, and Gay and Abrahamson will be found guarding the line. Louis Gross, the regular varsity tackle who has been playing his position superbly, but whose broken thumb kept him out of last Saturday's game will be ready to stop the Wisconsin backs. McDonald will be at the other tackle position. Cooper and Rollitt may both be called upon to work in the pivot position.

In Swanbeck, Guzy, Furst and possibly Gross, Coach Spaulding has a substitute backfield which ranks very high in ability. Also the shiftness of the regular men so that realignment of positions works to no disadvantage to the team, is a favorable factor.

## IOWA BOXER WILL ISSUE CHALLENGE AT RING TONIGHT

Terry Butt, one of Iowa's leading middleweight boxers, formerly of Wisconsin, will be at the ring-side tonight to challenge any man of his weight in this section. Butt fought on the Gill-Rollitt card at Cedar Rapids last year and has a number of acquaintances here. He is rated as a tough, fast and clever boxer, and one who makes a hit with the crowd wherever he fights.

## PURDUE TO COME BACK WITH FIGHT AGAINST CHICAGO

Despite Odds Purdue Expects to Show Stag Men a Varied Attack

LAFAYETTE, Ind.—Purdue alone will bear the burden of representing the Hoosier state in western conference football circles Saturday, as Indiana university will be idle. The Boiler Makers will oppose Chicago university at Chicago.

Surprised somewhat, but not at all discouraged over being held to a 7 to 7 tie by Wabash College last week, Purdue has swung back into training with a zest that indicated a future for Coach Jimmy Ebelan's youngsters. "The former Notre Dame star has developed a clean playing, hard fighting aggression which stubbornly by contrast every inch of ground and which is likely to surprise any team in the conference."

Chicago, of course, is held to be a big favorite even in Lafayette, but Purdue will show the Windy city eleven a running attack which reminds one of the Notre Dame teams.

One of the Purdue players the Maroons will have to watch carefully is Meyer, a tackle. On last Saturday he outplayed Captain Dutch Aul of Wabash College, for two years all-state tackle. The entire team probably will be in first class condition for the Midway struggle.

## RETAIN CAGE TITLE

EDMONTON, Alta.—The Edmonton grads retained the world's ladies' basketball championship title here Thursday night, defeating the Warren, Ohio, five for the second time, 27 to 15.

## GOPHER HAS EDGE IN VICTORIES OVER BADGER ELEVEN

Wisconsin, However, Has Defeated Minnesota in Past Three Years

MADISON, Wis.—By the Associated Press.—The Badgers will be paired against the Gophers in the twenty-ninth encounter between the two tomorrow afternoon on Camp Randall field here. In the twenty-eight previous frays, records show that Wisconsin has taken the edge over Wisconsin by winning fourteen games while the Badgers won twelve. Two games resulted in tie scores.

For the past three years, however, Wisconsin followers point out that the Badger has won. A record of previous games follows:

1893—Minnesota, 40; Wisconsin, 0	1907—Minnesota, 18; Wisconsin, 12
1894—Wisconsin, 6; Minnesota, 10	1908—Wisconsin, 17; Minnesota, 0
1895—Minnesota, 14; Wisconsin, 10	1909—Wisconsin, 5; Minnesota, 6
1896—Wisconsin, 6; Minnesota, 0	1910—Minnesota, 21; Wisconsin, 3
1897—Wisconsin, 20; Minnesota, 0	1911—Minnesota, 6; Wisconsin, 0
1898—Wisconsin, 23; Minnesota, 0	1912—Wisconsin, 14; Minnesota, 3
1899—Wisconsin, 10; Minnesota, 5	1913—Minnesota, 21; Wisconsin, 3
1900—Minnesota, 8; Wisconsin, 0	1914—Minnesota, 14; Wisconsin, 3
1901—Wisconsin, 17; Minnesota, 0	1915—Minnesota, 14; Wisconsin, 3
1902—Minnesota, 11; Wisconsin, 0	1916—Minnesota, 54; Wisconsin, 0
1903—Minnesota, 23; Wisconsin, 0	1917—Minnesota, 7; Wisconsin, 0
1904—Minnesota, 23; Wisconsin, 0	1918—Minnesota, 12; Wisconsin, 7
1905—Wisconsin, 18; Minnesota, 12	1919—Wisconsin, 3; Minnesota, 0
1906—Minnesota, 17; Wisconsin, 11	1920—Wisconsin, 35; Minnesota, 0
1907—Wisconsin, 17; Minnesota, 0	1921—Wisconsin, 14; Minnesota, 0
1908—Wisconsin, 5; Minnesota, 6	Totals—Wisconsin, 263; Minnesota, 227.

Only ten per cent of Americans caused in the war died.

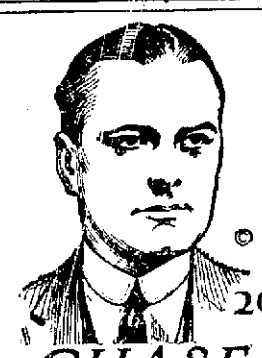

## DRIZZLING RAIN AT MADISON BADGERS IN FINE CONDITION

MADISON, Wis.—The Wisconsin football team today awaited the coming of the Minnesota aggregation tomorrow morning. Coach Jack Ryan yesterday decided his team had been worked up to the highest point of preparation and the final scrimmage was abandoned. The team went through extended formation drill until a late hour.

The Badger team is in excellent condition, coaches reported Friday. No serious injuries have been received and the line-up will be practically the same as that sent against Indiana last Saturday, it is said. Straight football will be relied on by the Badgers against the visiting Gophers.

A soft field was in prospect for the game. A drizzling rain was falling here this morning.

British death casualties due to gasing at Ypres were only 5 per cent.

## STATE GRIDIRON GAMES SCHEDULED FOR THE WEEK-END

MILWAUKEE, Wis.—A number of football contests of primary importance are on schedule for Wisconsin teams this week-end. The two outstanding games are the Wisconsin-Minnesota game at Madison and the Marquette-Boston college at Boston.

The schedule of games includes the following:

October 26: Lawrence college vs. Cornell college (Mt. Vernon, Ia.) at Appleton.
October 27: Wisconsin vs. Minnesota, at Madison.
Marquette vs. Boston college, at Boston.
St. Joseph's Point Normal vs. Oakbrook, at Stevens Point.
Carroll college vs. Northwestern college, at Carroll.
Belmont vs. Lake Forest, (Lake Forest, Ill.) at Belmont.
Oct. 28: River Falls Normal vs. Platteville Normal, at River Falls.

## Learns Peanuts Are First Class Bait for Perch

MILWAUKEE, Wis.—Gustave Sorenson, 68, veteran of the Isaac Walton pastime, has discovered that peanuts are a first class bait for perch. The old fisherman relates how one afternoon, he with many other persons had fished on the government pier at Milwaukee for three hours without any of them getting a single strike, when suddenly the cry of an archer peanut vendor "fresh roasted peanuts" echoed in his ears.

Sorenson purchased a bag of peanuts and baited his hook with some of the contents.

"The fish went all squirrely," says Gus, "for in no time, I had my fill of perch and then some."

Sorenson then told how the luckless fishermen near him gathered around trying to pry from him his secret.

"I said nothing," chuckled the old man, "but munched the last of the peanuts, for I, too, am fond of them."

NEW YORK.—The executive committee of the American Olympic committee voted to hold the final track and field contest to determine the make-up of the American Olympic team at the Harvard stadium beginning June 14.

# Wherever Women Meet, They Discuss the Advertisements in the Market Basket

## INVESTORS WARNED BY STATE AGAINST FAKE MORTGAGES

Fraud is One Not Easily Reached by Legislation Says Banking Commissioner

MADISON, Wis.—Fake mortgages flood the country and the people selling the worthless securities escape unpunished due to the difficulty of bringing the transactions to light, according to Dwight T. Parker, commissioner of banking.

An attempt was made at the last session of the legislature to bring dealers in mortgages under the control of the state banking commissioner. This measure was defeated.

It is practically impossible to end frauds through the sale of worthless mortgages according to Mr. Parker. Most mortgages are sold by one individual to another and it would not be possible to reach these through a system of licensing or other legislation, he declared.

The proposal at the legislature to bring all mortgage selling concerns under the direct supervision of the state banking department would not bring a remedy to the situation, Mr. Parker declared. It wouldn't be possible to require a license of every person who might want to sell a mortgage that he possessed. Besides he declared that with but a dozen men the banking commission now has the

supervision of 1,000 institutions and the force would necessarily have 50 men before work could be accomplished effectively.

The finding of \$1000,000 worth of alleged worthless mortgages through the death of Otto J. Hahneberger, Milwaukee, was cited by Mr. Parker as a typical case of how fraudulent securities can be sold without probability of legal interference.

One of the usual occurrences cited by Mr. Parker is where a woman becomes a widow and comes into possession of thousands of dollars in life insurance. An unscrupulous man in whom she has much confidence promises to invest her money and sells her a worthless mortgage. The transaction probably does not come to light until the death of the parties to the transaction.

The fake mortgage came is one of the proofs that it is impossible to legislate honesty into people, Mr. Parker declared. Glibble people and those who are dilute fall easy victims to those who want to take advantage of them and it is difficult for the state to protect them.

### WOMEN'S CLUBS TO MEET

ST. JAMES, Minn.—A joint all day meeting of the Watonwan County Federation of Women's Clubs and the County Health association will be conducted in St. James Oct. 29. Members of the Women's Civic club of St. James will act as hostesses. Mrs. A. B. Chasch of Jackson, president of the Second District Federated Clubs, will be the principal speaker.

The report that world series fence knotholes will be made from doughnuts is a mistake.

## CIVILIZATION OUT OF BALANCE SAYS MARKET DIRECTOR

Declares too Much Stress Laid Upon Production of Wealth; too Little on Distribution

VIOLA, Wis.—Our present civilization is out of balance in that it lays too much stress upon efficiency in the production of wealth and too little upon a just distribution of wealth, Edward Nordman, director of the state department of markets, declared in an address here Thursday night.

"Society finds itself able to pro-

duce vastly more wealth than it can find a market for," he said. "This condition is due to the fact that the masses are not compensated for their work in proportion to the value of their services and they cannot purchase the equivalent in value of what they produce. This results in a surplus which depresses prices and brings on hard times every so often."

Mr. Nordman declared that the failure of the masses to get just returns for what they had to sell was due to monopoly which would have to be gotten rid of before good markets and fair prices would become a reality in this country.

Mr. Nordman warned against confusing larger scale enterprises with monopoly. He declared that the difference is that big business as such gives greater service for its income than smaller business units, while the

privilege gives inadequate service or none at all for the income which it receives.

### ACCUSED OF FREIGHT THEFT

OWATONNA, Minn.—"Owatonna Slim" or "Blackie Burns," an Owatonna boy, was arrested in connection with the robbery of freight on the Milwaukee railroad. Burns is charged with grand larceny in connection with theft of freight from a boxcar on the Chicago, Milwaukee and St. Paul railroad at Farmington. Burns' arrest was the outcome of a raid at Farmington during which officers shot August De-

muele through the right leg just above the knee, severely wounding him.

America's oldest cyclist is supposed to be "Daddy" Craig, of Watts, Calif., who is 86, has pedaled a bicycle for 46 years and is still going strong.

## FEDERAL BREAD

# freshness

packed in air-tight  
Tin Containers

To keep it fresh for you

THE moment you open a tin of Thomas J. Webb Coffee, you can sense its delicious freshness. Direct from the "live flame" roaster to you, no moisture has reached it. No hand has touched it. Not a bit of air has seeped through its container to rob you of its precious freshness.

You don't have to transfer this coffee into an air-tight jar for fresh keeping. Its original tin container with its friction top cover affords complete protection. Protects the coffee on its way to you—protects it while you use it. That's why you can use it little by little and find the very last particle in the tin just as fresh and fragrant and flavor-filled as the first.

Because of this protected freshness, a pound of Thomas J. Webb Coffee goes further than a pound of ordinary coffee. Gives you many more cups of good coffee to the pound—costs you less per cup than coffees that sell for less on the pound.

## SAYS ENGLAND'S FUTURE DEPENDS ON MORE BABIES

Declining Death Rate Giving Authorities Much Cause for Concern

LONDON.—By The Associated Press.—England's declining birth rate is giving the authorities cause for concern. For the three months ended in June the birth rate per 1,000 of population in England and Wales was 24.7. The register general says this is the lowest birth rate recorded in any quarter of the year, except during the period of the war. In 1912 it was 24.9, in 1913 24.5, in 1920 23.6, in 1921 23.9 and in 1922 21.1. In the second quarter of 1923 it fell to 20.7, which is a drop of nearly 6 per cent in three years.

"The birth rate continues to fall at an alarming rate," observes the Daily Express, "Britain's very existence as a nation is menaced." The editor asks what the chief causes of the slump in babies is, and gives the answer itself by saying: First, unemployment, and, second, shortage of houses. "The workless man cannot afford to marry," it says, "and the homeless man dare not marry. Therefore, in order to arrest the fall of the birth rate, we must solve our unemployment problem and our housing problem."

It is necessary to face the facts, the Express adds. "Without a steady and constant birth rate the British empire would cease to exist. Every child born in these islands is a potential producer of wealth. If our supply of children falls, our empire will decline and fall like Rome. The empire has been built up on emigration from the mother country to the daughter countries over the seas. The new lands have drawn their new blood from the old stock in the motherland. It is our duty to look a generation ahead, so that in 1943 there will be a stream of young men and women flowing from the old home land to the new lands."

**HONEYMOONERS PLACED IN CLASS ALL THEIR OWN**

NEW YORK.—Honey-mooning is neither a business nor an occupation, according to a ruling by the board of elections, and consequently honey-mooners are not entitled to cast absentee ballots. Under the law, only those away on business duties or occupation within the United States are entitled to cast absentee ballots, and in the unanimous opinion of the board, headed by John R. Vorhis, honey-mooners are away for social reasons.

## AMERICA SHOULD FORGET COLUMBUS SAYS BADGER KLAN

Discovered America Only by Accident and Leif Ericson Should Have Honor

MADISON, Wis.—Christopher Columbus has been deposed of his honors by the Ku Klux Klan of Wisconsin.

Columbus might have possibly been a discoverer in that he reached San Salvador, "but this alleged discovery was purely accidental," the Klan says in literature sent all over the state from its headquarters in Milwaukee.

"Sectarian organizations are disseminating a species of sectarian propaganda which unfairly and unjustly seeks to convert public opinion towards establishing a figure in world history, known and named Christopher Columbus," the Klan has discovered.

America should forget about Columbus and celebrate the advent of Leif Ericson, who first reached American shores, the Klan announces.

The Klan resolves that Catholics had nothing to do with the making of America from its discovery down

through the organization and development of the United States.

William F. Wiseman, King Kleagle of the realm of Wisconsin, and located at Milwaukee, takes credit for the discovery of the latest dope on American history.

**DRIVE SODATOL TRUCK THROUGH BLAZING FOREST**

WASHBURN, Wis.—The trucking crew that was delivering sodatol from Bayfield to Herbster last week had a thrilling experience in making the trip one day when they were completely surrounded by fires along the road on several occasions and it took some clever work to prevent the load from catching fire. At one place the fire almost blocked the road, but it was impossible to turn around as the fire had crept in behind them, but by maneuvering they managed to pass in safety and landed with their load in safety at Herbster.

**PRINTERS ELECT TODAY**

WASHINGTON, D. C.—The United Typothetae of America Thursday

got down to what some of the delegates regarded as the most important feature of its thirty-seventh annual convention program, with a special session in the morning to receive the report of the committee on nominations.

The nominations were undelated by the delegates with more than usual interest because of the change in the customary advancement of the first vice president to the presidency.

**570 STUDY JOURNALISM IN U. W. THIS FALL**

MADISON, Wis.—With a class enrollment of 570 students and with 328 students registered in the four year course of journalistic studies leading

to a degree, the course in journalism of the University of Wisconsin has just begun its eighteenth year. The figures represent an increase of about 9 per cent over the class enrollment last fall.

## MANY SERVICE MEN NOW ESTABLISHED ON BADGER FARMS

Veterans Receiving Help from  
Veterans' Bureau and State  
Agricultural College

MADISON, Wis.—The work of approximately seventy-five veterans of the world war in "beating it back" to their pre-war status, has been clearly shown by reports from more than fifty who have been here this week in conference at the college of agriculture, according to college officials.

The veterans are reestablishing themselves in their communities on farms throughout the state. They are being assisted by U. S. Veterans Bureau and the college of agriculture. The conference here was for the purpose of rounding out the instruction which the men are receiving on their farms.

Every type of farming carried on in Wisconsin is being done by the former service men, officials report. Some are clearing new land in the out-lying regions for truck and poultry raising while other have established high class dairy herds.

Among the counties represented at the conference were: Dane, Rock, Jefferson, Racine, Walworth, Milwaukee, Waukesha, Dodge, Fond du Lac, Oneida, Sawyer, Price, Rusk, Barron and Eau Claire. Representatives of the Veterans Bureau from Chicago, Eau Claire, Milwaukee, and Madison attended the conference.

Directors for the university in the work are: A. H. Cole, R. L. Post and J. I. Etheridge.

**WATER CONCERN MUST PAY**  
WASHBURN, Wis.—According to a decision of the supreme court, the Washburn Water Works company must pay damages of more than \$1,000,000 for alleged failure to comply with the order of the state railroad commission to lay water mains four years ago. Recently the Dane county circuit court decided the commission had no jurisdiction in the matter and the case was then taken to the higher court.

The London underground railway is now installing automatic railway ticket machines in theatres and department stores adjacent to the underground stations.

## DR. GRENFELL TO TELL OF EFFORTS IN NORTHLAND

One of the most interesting events of the normal lecture series will be the appearance of Dr. Wilfred T. Grenfell, with a wonderfully human story of the northland and the insurmountable difficulties he overcame in his establishment of hospitals along the coasts of Labrador.

Dr. Grenfell first visited the coasts of Labrador and North Newfoundland in 1892 at the suggestion of Lord Southborough, going in a hospital sailing ship to see if a medical and surgical service could be established. From this simple beginning has grown during the past thirty years one of the great service works of the world. Devoted and loyal helpers from all over the English speaking world have given their services, and now a chain of six hospitals, four nursing stations, two orphanages, some small schools, an industrial work, a large seaman's institute at St. John's, Newfoundland, a hospital steamer, and a fleet of auxiliary power rafts connected with the various hospital centers, is doing

## BLUE BELL GINGER ALE

Is recommended to all lovers of Ginger Ale as a delicious beverage—besides their healthfulness there is always the pleasure of drinking them—delightfully gratifying and appetizing adding zest peculiarly their own. It pleases the most exacting connoisseurs.

Comes in 12-ounce brown bottles only—enough for two glasses.

**NORTH SIDE  
BOTTLINGWORKS**

La Crosse, Wis.

unlimited good for these deep-sea fishermen and their families. Distinguished honors have been conferred all unsolicited upon Dr. Grenfell for his service to humanity. England conferred upon him the order of Companion of St. Michael and St. George. Oxford gave him the only honorary M. D. which that university has ever bestowed; he was made a Fellow in the American College of Surgeons and Harvard has given him its honorary M. A.

The lecture "Midst Ice and Snow in Labrador" is accompanied by 2,500 feet of moving picture film, illustrating this epic story of the rugged northland. It is told in the easy

# BLUES WIN FINAL

## IN MINOR LEAGUE

**Schupp Mystifies Orioles With Curves; Brief Homers**  
**With One On**

BALTIMORE, Md. — The Kansas City Blues are sitting atop the minor league baseball world Thursday night. They clabbbed their way to victory over the champion Baltimore Internationals in the ninth and deciding game of the little world series at Oriole park Thursday afternoon. The score was 5 to 2.

Two home runs, one by Skiff in the third inning and Brannon on second, and another by Brief in the ninth, teamed with Becker on first, won the minor league championship for the American association pennant winners.

Lefty Schupp, hurling for the Blues, mystified the Birds with a sweeping curve that stopped all of Baltimore's left hand hitters. Lefty Groves was Baltimore's choice to start the game.

after he had walked three men and allowed a single. He forced in the first man with a pass, and Manage

The big right hander was very effective in all except the fourth and ninth innings, when the clouds out of the park settled his fate. Walsh, Mausel, Lawry and Sheely made the hits that figured in Baltimore's runs.

3.103 See Final Fight

The attendance on Thursday was 3,103; net receipts, \$4,158.30. The total attendance at the nine games was 4,765, and the total net receipts were \$106,619.33.

The share in the first

five games only, will divide between \$55,000 and \$60,000. The exact amount, it was understood, would be

announced on Friday by Commission  
ers Hickey and Toole.  
The Score: R H  
Kansas City ..... 100 200 002—5 10  
Baltimore ..... 100 000 010—2 9  
Schupp and Staff; Groves, Par  
dam and Cobb.

## STATE BOARD HITS STOCK SALE METHODS OF MOVIE CONCERNS

Warns Public Against Purchasing Stock Not Authorized in Wisconsin

MADISON, Wis., — The railroad commission on Thursday issued a warning against the purchase of stock in the Cinema Consolidated, Inc., which has not been authorized in Wisconsin and the methods of which seem fraudulent.

Stock is being offered in the Ebony Film company at \$10 a share and much manipulation by representatives of the alleged company, the commission asserts.

"The commission warns the public of such stock selling methods," according to the announcement. "Such methods are used only as bait and if the victim bites, he is on a sucker list for ever more. Persons with money to invest should not act hastily. They should not be deceived by 'valuable rights.' They should not be lured by a dividend check bought by an agent who tries to sell more stock. If an agent appears a few days or a few weeks after a dividend has been received, the dividend may have been only bait, and the stockholder ought to investigate before investing any more money in the enterprise. The public is urged to cooperate with the commission and the officers charged with the enforcement of the law in preventing the illegal sale of securities in the state."

**EDITOR TAKEN TO HOSPITAL**  
NEW PRAGUE, Minn.—W. L. Sery, editor of the Montgomery Messenger, was taken to a hospital here as the result of a rifle wound in his chest from the gun of Thomas Pavek, aged 11, while they were hunting Sunday near Kilkenny. The bullet had not been extracted, but physicians entertained hope for Sery's recovery.

### The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and itching of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store and four ounces is all you will need. This simple remedy has never been known to fail.

## PARENTS-TEACHERS' IN THE HAMILTON SCHOOL HAVE MEET

The Parent-Teachers' association of the Hamilton school held their first meeting for the year Wednesday evening of this week. Superintendent B. E. McCormick was present and talked to the association on school problems. Musical numbers rendered at this meeting were a group of songs by 7B grade pupils under the direction of Miss Ehler and a violin solo by Edwin Berner who was accompanied on the piano by his sister, Miss Dorothy Berner. The following officers were elected for the coming year: President, William Koch; vice president, Mrs. A. D. Tabbert; secretary and treasurer, Harriet Kelly.

Reports show the organization in a good financial condition, with a bank deposit of \$213.03 to its credit. The refreshment committee for

this meeting consisted of Mesdames A. Stortz, M. Novak, L. Moes, C. Ott, E. H. Ekland, H. Lundie, M. Bell, O. Mydel, H. Fisher, and J. Papenfuss.

**SUES FOR \$2,500; GETS \$5**  
ELBOW LAKE, Minn.—One day was the length of the fall term of the district court for Grant county. Only one jury case was tried, that of Edward James against Mercurius Nelson, an assault case in which plaintiff sued for \$2,500. The jury returned a verdict for \$5.
